## DOING BUSINESS WITH NASA's JOHNSON SPACE CENTER

Cheryl Harrison, Monica Craft, and Charles Williams  
Small Business Specialists  
[JSC-Industry-Assistance@jsc.nasa.gov](mailto:JSC-Industry-Assistance@jsc.nasa.gov)

National Aeronautics and  
Space Administration

Lyndon B. Johnson Space center  
2101 NASA Parkway  
Houston, Texas 77058-3696

BD

Dear Prospective Client:

Thank you for your interest in doing business with NASA/JSC. To assist you in your effort we have provided this package of information to help you get started. The package includes the following:

- Information regarding the NASA Acquisitions Internet Service (NAIS). Registering for this service allows you to receive notifications on NASA acquisition opportunities.
- FY07 Acquisition Forecast
- SBA's "Guide to Doing Business with the Federal Government"
- JSC Local Prime Contractors Listing
- JSC Prime Contractors' Roundtable
- Information on the JSC Small Business Roundtable
- Points of contact for small business programs at NASA Headquarters and at other NASA Centers

Once you have reviewed this information and are registered in the Central Contractor Registration (CCR) System, you may contact this office to make an appointment to visit with one of the three JSC Small Business Specialists listed below. They will be glad to further assist you in your procurement efforts.

Monica Craft, Cheryl Harrison, or Charles T. Williams  
Email address: [JSC-Industry-Assistance@jsc.nasa.gov](mailto:JSC-Industry-Assistance@jsc.nasa.gov)

Thanks again, and good luck with your business!!

## **NASA ACQUISITION INTERNET SERVICE (NAIS)**

### **WHAT IS THE NAIS?**

The NASA Acquisition Internet Service (NAIS) is a World- Web service from which industry has immediate access to current acquisition information via the Internet. The NAIS is a collection of online servers operated at each NASA field installation, all of which are interconnected to more efficiently provide companies access to NASA acquisitions.

### **WHAT DO I GET FROM NAIS?**

Synopses, solicitations, awards notices, acquisition forecasts, regulations, small business assistance. All NASA synopses and all solicitations from procurement over \$25,000 are posted on the Internet.

### **WHERE CAN I FIND NASA AND OTHER FEDERAL ACQUISITIONS ON THE INTERNET?**

NASA acquisitions can be found at the NAIS Home Page- <http://procurement.nasa.gov>

### **TO SIGN UP FOR E-MAIL NOTIFICATION FOR NASA**

**PROCUREMENTS:** <http://prod.nais.nasa.gov>

Click on email notifications, read the instructions and create a profile for your company

### **OTHER USEFUL INTERNET ADDRESSES:**

**NASA SBIR/STTR HOMEPAGE:** <http://sbir.hq.nasa.gov>

**NASA Office of Small Business Programs:**

<http://www.hq.nasa.gov/office/codek/> E-mail: [smallbusiness@nasa.gov](mailto:smallbusiness@nasa.gov)

**Small Business Administration-** <http://www.sba.gov>

**Central Contractor Registration (CCR)-** <http://www.ccr.gov>

**Acquisition Forecast-** <http://prod.nais.nasa.gov/cgi-bin/forecast.cgi>

**Minority Online Information Services for HBCU's/MI's-** [www.molis.org](http://www.molis.org)

## NAIS Email Notification System

**First time? Have questions? See the [Help File](#).**

The NAIS Email Notification System (NENS) allows you to receive notifications on NASA acquisition opportunities of interest to you. You can register to receive email notifications by creating subscriptions, which will enable you to better track new acquisitions and their updates posted on the NASA Acquisition Internet Service (NAIS). You can track acquisition postings by product / service class, NASA center, a combination of the two, and by specific acquisition number.

### First Time Users

Your first step must be to set up your user profile using the "Create User Profile" link above. After you create your profile, you will receive an email that provides instructions on the steps required to activate your profile. Once your profile is activated, you may create custom subscriptions for tracking acquisitions of interest. For more detailed instructions, see the Help File.

### First Time And Returning Users

Once your profile has been created and activated, follow the "Create Subscription" link above to begin tracking acquisitions by:

1. product / service class code;
2. NASA center; and / or,
3. acquisition number.

*Note:* You are permitted to create multiple subscriptions for customized email notification. At any time you can update your profile if your email address changes or delete your user profile when you no longer wish to receive NAIS notifications. Similarly, your subscriptions can be modified when necessary. You will receive an email with each change to your profile and/or subscription containing the instructions for activating the change.

#### <<< Disclaimer >>>

Due to the nature of the internet, successful delivery of all notifications can not be guaranteed. In the event of network, server or application errors which cause notifications to be undeliverable or returned, no attempt will be made to re-deliver the notifications affected. The email notification component of NAIS is not intended to replace normal access to the system for information gathering purposes. No guarantee is made that you will receive every notice generated by the system, or that notices will be delivered in a certain time frame. Subscribers are ultimately responsible for reviewing the NASA Business Opportunities component of the NAIS system for all information relevant to desired acquisitions.

Version 1.6.0

Owner: Ron Crider | [Technical Support](#) | [NASA Privacy Statement](#) | [Section 508 Compliant](#)  
Last revised: 12-14-2006 by RHK

The NAIS Email Notification System allows you to receive notifications on NASA acquisition opportunities posted on the NASA Acquisition Internet Service (NAIS). You can register to receive email notifications that enable you to track acquisitions and their updates from the point of advance notice (synopsis) through solicitation closing. You can establish subscriptions by product / service class, NASA center, a combination of the two, and by specific acquisition number.

NAIS does not collect contact information from its users. Additionally, we make every attempt to keep our services as simple to use as possible.

### **Begin using NENS by following four easy steps:**

#### **1. Creating a User Profile**

Since your user profile is the key to subscribing to the NAIS Email Notification System (NENS), creating this profile is the first thing you should do after entering the system. Your profile can be thought of as your user account for NENS.

To create your profile, select the "Create User Profile" option from the menu bar. On the subsequent screen, enter your email address; that is, the email address where you wish to receive notifications. Nothing else is required.

Your email address is added to the system and your user profile is created in an inactive state. This profile will have to be activated before you can subscribe to receive any acquisition notices.

#### **2. Activating a User Profile**

After your user profile has been created, NENS will automatically send a message to the email address you provided containing instructions for activating your user profile.

Activating the profile will require that you access NENS using a special link and provide the Profile ID and PIN specified in the email. Once your profile is activated, you may create custom subscriptions for tracking acquisitions.

The requirement to activate a profile provides extra security to our NENS users. This process prevents others from registering your email address and/or making changes in NENS without your knowledge.

If you don't receive the email message with the activation instructions within 24 hours, chances are that you miss-typed your email address. Try creating your user profile again being sure to check for spelling errors. If you receive an error that the account already exists and still have not received activation instructions, contact our Technical Support for assistance.

#### **3. Creating Subscriptions**

Once you have activated your profile, you can create custom subscriptions to track acquisition postings of interest. Subscriptions can be created allowing you to receive notifications associated with an individual acquisition. It is also possible to subscribe to receive notifications associated with all acquisitions by individual NASA center, by individual product/service classifications, or by a combination. Additionally, you may subscribe to receive notifications associated with acquisitions by individual NASA center and North American Industry Classification System (NAICS) codes. Tailoring the subscriptions you create allows you to customize which notifications you receive.

To create a subscription, select the "Create Subscription" option from the menu bar then follow the steps below:

*Step 1* - Enter the email address associated with your user profile, then click "Continue".

*Step 2* - Choose the type of subscription you wish to create; by individual acquisition or by NASA center/class code combination. Click "Continue" to proceed.

**Step 3** - The actions you follow in this step are dependent upon your choice in Step 2.

**Individual Acquisition** - If you chose tracking by individual acquisition in the previous step, you will be prompted to enter the Acquisition Number for the acquisition you wish to track. (The Acquisition Number is available from the NASA Business Opportunities library and can be found by selecting the "Business Opportunities" tab at the top of the page.) You may enter all or any part of the number; the system will retrieve all acquisition numbers that contain the data entered. Click "Continue" to proceed. NENS will generate a list of matching acquisitions identifying the complete acquisition number and title for each. Select one acquisition using the radio button in the leftmost column then click "Continue". NENS will send you an email with instructions for activating your subscription; each subscription must be activated before you will begin to receive notices.

**NASA Center/Class Code Combination** -- If you chose tracking by NASA center/class code combination in the previous step, you will be prompted to choose the desired NASA center and/or class code of interest from the list. If you are unclear about which classification to select that best matches the commodities and services you supply, visit <http://www.usabid.com/resources/tables/pscs/> for definitions and examples. Use caution when selecting "All" from either the center or class code list since that selection will generate large volumes of email to your address. After you make your selections, click "Continue" to complete the process. NENS will send you an email with instructions for activating your subscription; each subscription must be activated before you will begin to receive notices.

**NASA Center/NAICS Code Combination** -- If you chose tracking by NASA center/NAICS code combination in the previous step, you will be prompted to choose the desired NASA center and NAICS code of interest from the list. If you are unclear about which code to select that best matches the commodities and services you supply, visit <http://www.census.gov/epcd/naics02/naicod02.htm> for definitions and examples. Please note that the ability for NASA's buyers to assign a NAICS Codes to an acquisition is OPTIONAL. Therefore, choosing ALL NASA Centers and ALL NAICS Codes is NOT a subscription for ALL notices posted. If you want a subscription for every notice that NASA posts, please choose the NASA Center/Class Code Combination type subscription and pick ALL centers and ALL classification codes. After you make your selections, click "Continue" to complete the process. NENS will send you an email with instructions for activating your subscription; each subscription must be activated before you will begin to receive notices.

#### **4. Activating a Subscription**

After you complete the subscription process above, NENS will send an email message to the address in your user profile. This message contains instructions for completing the subscription activation process. Activating the subscription will require that you access NENS using a special link and provide the Subscription ID and PIN specified in the email. If you have difficulties completing the process as instructed, contact our [Technical Support](#) for assistance.

### **NENS provides the following options for the maintenance of user profiles and subscriptions:**

#### **1. Updating a User Profile**

Whenever your email address changes, you must update your NENS user profile. Select the "Update User Profile" option from the menu bar, enter the email address currently on file in the NENS system, and then click "Continue". A message will be sent to you at that address with the information required to change your email address. Changing your address will require that you access NENS using a special link and provide the Profile ID

and PIN specified in the email. You will be prompted to enter the new address that should be used for your notifications. Note: If you can no longer receive email at your "old" email address, you must contact Technical Support for assistance in updating your profile.

## **2. Deleting a User Profile**

This feature enables you to delete your profile and terminate all subscriptions associated with the profile. This will discontinue ALL notifications. Select the "Delete User Profile" option from the menu bar, enter the email address associated with your profile, then click "Continue". NENS will send an email to that address with instructions for completing the deletion of your profile. Deleting your profile will require that you access NENS using a special link and provide the Profile ID and PIN specified in the email. Note: You will continue to receive acquisition notices until you complete all steps in the process.

## **3. Subscription Report**

Requesting a subscription report allows you to receive a listing of all your current subscriptions. First, select the "Subscription Report" option from the menu bar. You will be prompted to enter the email address from your profile; then click "Continue". NENS will email a report to you listing your subscriptions by subscription ID and the status (active or inactive) of each (notifications are not sent to subscriptions marked as inactive). Note: The subscription ID is required to delete a subscription.

## **4. Deleting Subscriptions**

To delete any of your subscriptions, select the "Delete Subscription" option from the menu bar. You will be prompted to enter the email address that goes with your profile and the ID of the subscription you would like to delete. (The Subscription ID is available from a Subscription Report.) Once you enter the requested data and select "Continue", NENS will email the instructions required to complete the deletion. Note: You will continue to receive email notifications of acquisition postings associated with that subscription until you confirm the delete request.

Dear Perspective Clients:

Enclosed is the NASA Johnson Space Center's Fiscal Year 2007 Acquisition Forecast. The procurements described in this forecast are expected to be solicited in this fiscal year and beyond. This is based on the best information available at the time of publication. All projected procurements are subject to revision or cancellation.

Final decisions as to the extent of competition, small, or disadvantaged business set-asides, estimated value, etc., will not be made until each procurement is initiated. The data is for planning purposes only and does not represent a pre-solicitation synopsis or constitute an invitation for a bid or request for proposal. The data does not represent a commitment by the Government to purchase the described supplies or services.

You are urged to review FedBizOpps online at [www.fbo.gov](http://www.fbo.gov), and the NASA Acquisition Internet Service web site at <http://procurement.nasa.gov>, for actual notices of pending contract actions.

## JSC FY07 Acquisition Forecast Midterm Update for JOHNSON SPACE CENTER (JSC), Houston, TX

Color-Coding (background) has been added to clarify changes in status:

WHITE background means a new item has been added to the forecast.  
New items also denoted with a New Item image 

YELLOW background means a change to the previous forecast.  
Changed items also denoted with an Updated Item image 

BLUE background means an award or deletion from the previous forecast.  
Deleted items also denoted with a Deleted Item image

### Data Definitions

CNTR Identifies the NASA Center conducting the procurement.

TYPE Identifies the procurement category as Research and Development (R&D), Services (SERV), or Supplies and Equipment (SUPS).

VALUE Indicates the approximate dollar value by the following ranges:

1 = \$100,000 to \$1,000,000

2 = \$1,000,000 to \$5,000,000

3 = Over \$5,000,000

RELQTR/RELFY Indicates the anticipated time, by quarter and Government fiscal year, for the issuance of the solicitation. The Government fiscal year begins on October 1.

SMALLBUS Identifies the extent to which the procurement is presently considered to be exclusively available for small and small disadvantaged businesses to perform:

"FULL" indicates a full set-aside is contemplated;

"PART" indicates a partial set-aside is expected;

"NONE" indicates that no set-aside is currently planned; and

"TBD" means that no preliminary determination has been made.

COMP Indicates whether the procurement is expected to be competitive "Y", or non-competitive "N".

Point of contact (POC) identifies the name and office code of a NASA employee at the procuring activity who is knowledgeable of the procurement and who can assist interested parties in assessing their abilities to participate in the procurement, either as a prime or subcontractor.

POC

Identifies the commercial phone number of the person named as the POC.

PHONE

Provides a brief description of the procurement and any other information the procuring activity considers to be useful to potential sources.

DESCRIPTION

Indicates whether the procurement data has been updated since the previous forecast. Each time a forecast is updated, this entry will be correspondingly annotated; e.g., a procurement action that has had some of its forecast information revised twice since its original publication would have the number "2" in this column.

## Guide to Doing Business with the Federal Government

### A Twelve Step Program for Success

#### 1. Become familiar with the SBA/GC Internet Homepage.

The SBA offers a wide array of programs and "hands-on" assistance to small businesses considering the federal marketplace. Go to our website at <http://www.sba.gov/GC/> and familiarize yourself with the services we offer. From this site you can identify local SBA contracting experts who can be an invaluable resource to you, whether you are new to government contracting or are currently doing business with the Government and are seeking advice on how to deal with a particular issue. From the "Resources and Opportunities" section on our website, you will find links to additional procurement-related programs and assistance. In addition, this site provides information about other SBA resources including Small Business Development Centers, Service Corps of Retired Executives (SCORE), and Women's Business Development Centers. Log onto the SBA/GC website today and find out why we believe that it is truly the entrance ramp to the Government's procurement Super-Highway.

#### 2. Determine if your firm qualifies for one of SBA's Certification Programs.

Formal certification by small business concerns is not required to bid on Federal contracts. Firms self-certify that they are small at the time of bid/proposal submission. The SBA currently has 3 contracts-related certification programs. Our 8(a) Business Development program assists eligible small businesses to compete through business development assistance. Although primarily a business development program, there are certain contracts restricted to certified 8(a) concerns. Certification in our Small Disadvantaged Business (SDB) and Historically Underutilized Business Zone (HUBZone) programs entitles qualified firms to special bidding benefits in the Federal-contracting arena. To learn more about these programs and to determine if your firm qualifies for 8(a), SDB, or HUBZone certification go to the SBA website (<http://www.sba.gov/>) and click on "Business Opportunities" and then select which program you are interested in under "Contracting Program Topics." An online training course for the three certification programs is also available at <http://www.sba.gov/training/certprograms.html>.

#### 3. Identify your product or service.

It is helpful to know the Federal Supply Classification Code (FSC) and North American Industry Classification System (NAICS) Code for your product or service. Many government product/service listings and future procurements are identified by FSC at <http://www.dlil.dla.mil/h2/>. Detailed information regarding NAICS can be found on the SBA website by clicking onto: [https://eweb1.sba.gov/naics/dsp\\_naicssearch2.cfm](https://eweb1.sba.gov/naics/dsp_naicssearch2.cfm). NOTE: Effective October 1, 2000, Small Business Size Standards for all Federal Government programs formerly associated with Standard Industrial Classification (SIC) codes were replaced by those that SBA has established for industries as described in the North American Industry Classification System (NAICS). SBA has established a new table of small business size standards based on NAICS ([www.sba.gov/size/](http://www.sba.gov/size/))

#### 4. Obtain a DUNS Number

Contact D&B at <http://www.dnb.com/> to obtain a DUNS number or 1-866-705-5711

#### 5. Register in the Centralized Contractor Registration (CCR) System.

The Central Contractor Registration (CCR) is a database designed to hold information relevant to Federal Government procurement and financial transactions. CCR affords you the opportunity for fast electronic payment of your invoices. You must be registered in CCR to be awarded a contract from the Department of Defense (DOD) and certain other Federal agencies. To learn more about CCR log onto the website at <http://www.ccr.gov/>. It's *f-r-e-e* to register.

SBA has now integrated its PRO-Net database of small businesses with the CCR. There is now only one portal for entering and searching for small business sources. Contracting Officers are able to log into CCR and search for small businesses in the *Dynamic Small Business Search*. This database is used extensively by Federal Government buying offices as well as many large prime contractors to identify firms for prime and subcontracting opportunities. So it's in your best interest to periodically review your profile to ensure that it is current, up-to-date and accurately reflects your firm's capabilities.

#### **6. Identify current Federal procurement opportunities.**

As of January 2, 2002 Federal Business Opportunities (FedBizOps) [www.fbo.gov](http://www.fbo.gov) – the designated government-wide point of entry- is the exclusive official source for public access to notices of Federal contracting actions over \$25,000. (Agencies are also encouraged to use FedBizOps to provide notices for actions less than \$25,000). FedBizOps is the one-stop Internet gateway to procurement opportunities. You can register with FedBizOps to have solicitations and notices in your commodity sent to you by email periodically. Once you have identified those Agencies and buying offices that purchase your products and services, it's a good idea to contact them directly to learn more about upcoming procurements (i.e., procurement forecasts) posted on websites or electronic bulletin boards. For example, to identify current DOD procurement opportunities in your product or service area, check the DOD Business Opportunities website:

<http://www.dodbusopps.com/>.

#### **7. Familiarize yourself with the Government's contracting procedures**

Be familiar with Federal Acquisition Regulations (FAR) (<http://www.arnet.gov/far>) and the Defense Federal Acquisition Regulation Supplement (DFARS) <http://www.acq.osd.mil/dp/dars/>. You can also get access to other Federal agency FAR supplements from their respective WebPages. These are the guidelines by which the Federal Buying Activities purchase.

#### **8. Investigate Federal Supply Schedule (FSS) contracts.**

The General Services Administration (GSA) manages Multiple Award Schedules (MAS) contracts, also known as Federal Supply Schedule (FSS) contracts. Under MAS/FSS, contracts are awarded to multiple companies supplying comparable products and services at pre-negotiated prices, terms and conditions. Once GSA awards the contracts, Federal Contracting officers from all federal agencies and other authorized users order directly from the Schedule contractor. Contact the General Services Administration (GSA) for information on how to obtain a MAS/FSS contract:

<http://www.fss.gsa.gov/> (Be sure that your CCR profile contains information on any MAS/FSS contracts held by your firm).

#### **9. Seek additional assistance as needed in the Federal marketplace.**

There are a number of important resources that are available to provide you with "hands-on" assistance in the Federal marketplace:

**-SBA Procurement Center Representatives (PCRs) and Commercial Marketing Representatives (CMRs)** SBA has a nationwide cadre of procurement professionals who are charged with assisting small businesses and acting as their advocates at both the prime and subcontracting levels. PCRs assist small firms interested in doing business, as prime contractors, directly with Federal agency buying offices. Our CMRs work with those small firms interested in identifying subcontracting opportunities with large businesses that have been awarded a Federal contract. To identify the PCR or CMR located nearest to you go to <http://www.sba.gov/GC/indexcontacts.html>.

**-Procurement Technical Assistance Centers ([www.dla.mil/db/procurem.htm](http://www.dla.mil/db/procurem.htm))** are located in most states to provide small business concerns with information on how to do business with the Department of Defense. They provide training and counseling on marketing, financial, and contracting issues at minimal or no cost.

**-Small Business Specialists** are located at each Federal buying office and can provide assistance on how to market to that Agency. A complete listing of Small Business Specialists can be obtained from each Agency's website. For example, links to the homepages of every DOD activity can be found on the *DefenseLink* website:

<http://www.defenselink.mil/>. This information can be invaluable in researching the Federal marketplace and identifying your target market. Links to *Agency Procurement Forecasts* (<http://www.sba.gov/GC/forecast.html>)

and other program information are available on their individual websites.

#### **10. Explore subcontracting opportunities/ Accept credit cards**

Regardless of your product or service it is important that you do not neglect our very large secondary market, subcontracting opportunities with Federal Prime Contractors. Be sure to check out our website at <http://www.sba.gov/GC/indexcontacts-sbsd.html>. The SBA/GC Subcontracting Opportunities Directory lists, by state, large business Federal prime contractors along with the name and telephone number of each firm's Small Business Liaison Officer (SBLO). We encourage you to investigate potential opportunities with these firms. Many of these firms also have websites that may be useful and we encourage you to contact their respective SBLO for subcontracting and teaming opportunities. Some large prime contractors have also posted current commodities that they are seeking small businesses for on SBA's SUB-Net site (<http://web.sba.gov/subnet/>).

More than 250,000 Federal employees are using the GSA Smartpay cards. As a vendor you can maximize your ability to capture government sales by accepting credit cards (Visa, MasterCard and Voyager). If you already accept these cards, you have no additional work to do. If you do not accept these cards contact a bank to establish a merchant account. For more information, visit GSA's website at <http://pub.fss.gsa.gov/services/gsa.smartpay/>

#### **11. Investigate other Federal programs.**

There are several other programs that may be of interest to you, such as individual Agency Mentor-Protégé Programs, the SBA's Small Business Innovation Research Program <http://www.sba.gov/sbir/indexsbir-sttr.html>, etc. Information on these and other programs is available on Agency websites <http://www.sba.gov/gc/indexresources.html>, and "click on" miscellaneous links to other Federal Government Acquisition sites.

#### **12. Market, Market, Market!**

The 3 most important words to remember in order to be successful in the Federal Procurement Arena is market, market, market. Hopefully, this guide will have given you some good ideas on how to market your firm. After you have identified your customers, researched their requirements, and familiarized yourself with the Government's procurement regulations and strategies, it is time to market your product or service. Present your capabilities directly to those buying offices that purchase your products or services. Realize that, like you, their time is valuable and if the match is a good one and you can provide them with a cost-effective, quality solution to their requirements the contract could be yours.

## Johnson Space Center

### Contractor List

#### **4W Solutions**

5330 Griggs Road, Suite A113 B-42  
Houston, TX 77021-1634  
Pearl Wright 713-741-4314 - FAX: 713-741-1457
